

MAX5

Outboard Propeller

Introducing the all-new Mercury Racing MAX5. This custom five blade wheel, developed and hand-crafted by the Mercury Racing Propeller Lab, is specifically designed for single and multiple Verado 400R Sport Master applications. The Lab Finished MAX5 provides a measurable reduction in propeller slip, (up to 12%). In fact, the MAX5 prop is so efficient; builders are finding they can run 400Rs higher to take full advantage of the race-proven Sport Master gearcase.

The 15-inch diameter MAX5 is offered in a pitch range of 23 to 34 inches in one-half inch increments. The one-half inch pitch offerings enable engines to be dialed-in to their maximum rpm operating range for enhanced throttle response, optimized cruise fuel efficiency and top speed. The stainless steel prop features the Mercury patented Performance Vent System® (PVS). PVS® enables the user to fine-tune the amount of venting needed for quick planing.

PITCH	RIGHT - HAND	LEFT - HAND
23"	8M0117982	8M0117983
23.5"	8M0117984	8M0117985
